OEDP Survey Moves To July 25 Goal

Survey information sheets for Hancock County's Overall Boonemic Development Program were distributed among program committee chairmen last Wednesday night at the group's fifth

W. Ray Gordon, president of the County Chamber of Commerce which is sponsoring the project, established a July 25 deadline for the completion of the surveys, saying that most of the necessary information would he available from city, county and even state offices. Copies of Webster County's OEDP report were also distributed as a guide by which to work.

Mayor John A. Scafide ex plained that the various committee reports should itemize county assets and deficiencies in communications, transportation, county service organizations, ecc. and also present a plan for future growth and development. The complete report will he submitted, through the Mississing Agricultural and Industrial Board, to the Area Redavelopment Administration in Washington.

Alterations in committee chairmen included Jehnson Shaw, appointed chairman of the city planning committee to replace Fred Wagner, Jos McCullouch chairman of the education committee to replace K. G. Mc-Carry; and Nolan Ladner and Clarence M. Lodner as co-chairman of the wild-life and fisheries

DOORS

As the land acquisition program by the Corps of Engineers continues throughout the Fee and Buffer zones of the rocket test facility in Hancock and Pearl River Counties, we ask:

- WMY does the Corps of Engineers apparently consider the people completely ignorest as to the value of their properties? We were told, in a conforance with authorities, that if a property owner compares the offer made him for his property with the price received by a neighbox, that his comparison is not valid, that he has no basis for his comparison, since he is not a logally qualified land appraiser.
- WHY do they offer one owner with 80 acros of land, two good homes, artesian well and other improvements \$16,500.00 and then pay \$17,250.00 for 40 acres of comparable land with a house of lesser quality and practically no improvements?
- WHY do they pay one owner with a modest house and one acre of land \$11,000,00 and offer his neighbor with a much more valuable house and 12 acros of land, \$10,300.00?
- WHY do they refuse to tell the people what the appraisal on their property is? The negotiators make an OFFER and will not tell the owner if this offer is above, below or equal to the appraised value.
- WMY do they use "horse trading" methods of negotiation? Those owners who have had the courage to argue with the negotiaters have, in almost every instance, received payments considerably above the first offer made them. We have provable instances in which they have increased the first offer by \$2,000.00 or \$3,000.00 and in one case the offer has been increased \$9,000.00 over the first offer. In other words these people would have been cheated our of this much money by the Government had they accepted the first offer. On the other hand, some owners have, with little or no argument, quietly accepted their first offer. We ask, is this the democratic way for our Federal Government to do business with the people? Is this Fair and Equal treatment to all?
- WMY do they wait up to within 30 days or less to the "deadline" for moving before the first offer is made to some of the owners in the Fee area? Many people have not had the ready cash with which to buy another home. All of the financial institutions of the erea have been forced into a very reluction position in making loans to the people simply because it was realized in the early stage of the negotiations by the Government that no one could make oven a wild guess as to what he would be paid for his
- WHY were we told at the meeting in Logtown in October that no one would be hurs, that the Government has pleasy of money for this project and that we would all be well paid for our property?

The Government is now considering buying the land in the Buffer zone in fee simple, but no decision on this has been announced. The only possible value of land in this area with the forced imposition by the Government of the easement, would lie in those tracts presently with a good growth of young or soluble timber. A much more remote possibility of value would depend on mineral resources, the development of which is most unlikely. It is practically universally agreed by men of sound business judgment in this area, that open land or pasture land in the Buffer zone will be of no value and will prove to be a complete tox liability to the owners.

We feel that the only democratic approach to the land problem in the Busfor zone would be to give the land owner option of selling ownight to the Government or accepting the easement if he considers that his property will be of sufficient value under such an agreement.

We are completely agreed that some of the owners in the Fee zone have received foir compensation for their property, but it is our opinion that no one has been paid too much.

Time is running out for the people in the Fee area. It is going to be a long way through the Buffer zene. All that we are asking of our own Government is JUSTICE and EQUAL TREATMENT for all.

Facing Facts

Property sumers in the Bay St. Louis Municipal Separate District are likely to pay more tunes next year. The badget adopted by the system's trustees Monday indicates on increase for school purposes of about two mills making a small for this purpose of about 21 1/2 mills.

Unless the mayor and commissioners can with their extra expenses, taxes will have to be upped this amount office state law requires amnicipalities to provide amnicipal coporate achool districts with the amount cat in the budget by the trustees if a millage of 25 mills would bring in cosuch. In any event Vaveland and the Outside Area cerved by the peparate achool system are sure to be effected.

While we are opposed to paying taxes as seach as the next men we do feel that the school structures were probably justified bedresing the edition languar. The and fact in that that taxes for the county will have to be mised by ment year, and, if Harrock Commy and the Bay-Vovelend area are in expand properly with the enticipated new growth, all three political divisions may have to mice their millage outsmatially or increase assessments to more acarly the actual value of the property.

Te are confused, to put it mildly, at Peravien politics but apparently the switch in support of presidential condidates by Popular Revolutionary Allience followers Day stabilize the government. Consequently we wonder if the United States may not have acted hastily in breaking off diplomatic relations, norwithstanding this conntry's opposition to cilitary coup d'emm. But ve also remember Castro.

The old eye poppers which tourists used to smuggle back from Paris under their dirty shirts are now clothed in judicial blessing. A Chicago judge has recently issued a blanket injunction against any one who might try to prevent the sale of Tropic of Cancer to children. Lady Chatterley's Lover and Ulysses are on the paperback shelves right next to the comic books. They can close the bookstalls on the Scine. It's all over at your cormer drugstore where the kids hang out.

Don Maxwell of the Chicago Tribune last year asked his book department to quit advertising scatological literature by including it in the list of best sellers. The critics and the book publishers have denounced him for tampering with the facts. I would like to raise a somewhat larger question:

The Soul of America

Who is tampering with the soul of America?

Ladies and gentlemen: do not let me overdraw the picture. This is still a great, powerful, vibrant, able, optimistic nation. Americans — our readers — do believe in themselves and in their country.

But there is rot, and there is blight, and there is cutting out and filling to be done if we, as the leaders of free men, are to survive the hammer blows which quite plainly are in store for us

Hit the Sawdust Trail

We have reached the stomachturning point. We have reached the point where we should reexamine the debilitating philosophy of permissiveness. Let this not be confused with the philosophy of liberty. The school system that permits our children to develop a quarter of their natural talents is not a champion of our liberties. The healthy man who chooses to loaf on unemployment compensation is not a defender of human freedom. The playwright who would degrade us the author who would profit from pandering to the worst that's in us, are no friends of ours.

It's time we hit the sawdust trail. It's time we revived the idea that there is such a thing as sin-just plain old willful sin. It is time we brought selfdiscipline back into style. And who has a greater responsibility at this hour than we—the gentlemen of the press.

vices Sunday they found most of the glass panes in the front door shot out with a BB gun and broken by rocks, Glass and rocks were scattered all over the church, This is not the first time this has happened. Not enough has been suit about the destructiveness of a BB gan and what a dangerous weapon it is in the hands of an irresponsible child. The matter has been turnac over to the authorities and if the parents of these children cannot control their conduct then perhaps drastic measures must be taken. Friday's other game found Coast Electric ripping Cue Oil 6-4 and Wednesday's nightcap saw the Junior Sheriffs trouncing Gulf Coast Express 16-3,

Ken's had no trouble Friday besting the Little Pennien. Singles by Don Ladner, Larry Gagnon and Bert Chevis scored a run in the first, a triple by Dick Ladner and a single by B. Favre helped account for six second-inning runs, and successive singles by Don Ledner, Gagnon, and Herbie Choins brought home the final runs in the third. Corver was the winning pitcher, Gene Estapa the loser.

Coast Electric never trailed Cue Oil in Friday's nightcap but had to hold down a last-tening Oiler rally when they scored all their runs. The winners collected six hits, all singles. Batting safely were Ree Ellictz. Davy Compress, Jay Warner, Gayaut, John Hearn and Dinky Geoffrey. B. White and Dennie Caldwell had the only hirs for Care Oil.

le local Pony League, Youth Center has a decided edge. This isst year they hadn't won a game, but this season after an aight loss to Fahey Drug caused by lack of practice and no they've chalked up 10 victories in succession. Youth with three boys on the bench who could play first string almost any other team. has won several games by the skin of ast any other team, has won several games by the skin of hir tech but appear to have the rest of the loop clearly outclassed. The is leading the pack in the Little League, but at least three terms are capable of giving them a rough game. Ken's Little the lunior Sheriffs, and Coast Electric all have good out While the Sheriffs and the Electri-Kids have powerful batting the Little Diggers have been getting excellent pitching. OLG is undefeated in the Women's Softball League and has a state lead over their opponents. Jerome's is the only squad to the leaders as Moran's and Mollere's Realty started so they were almost out of title contention in the first five

If you take your truck for granted

A truck that doesn't call for a lot of attention, that just does its job every day, is a great asset. This is the thing most users tell us they like about Chevrolet trucks-their reliability. And this, of course, comes from quality.

Sound engines, strong frames, double-wall construction, insulated cabs, separated bodies

and cabs, tight tailgates . . . are some of the features that help Chevrolet trucks work longer and bring back more of your investment

If you wish you had a truck that cost you less thought and attention, put your money on quality. Make your next buy a dependable Chevrolet truck.
